

Grading criteria: Analysis assignment #2

- Note: All items listed on rubric should be interpreted as meaning "if applicable"

	Excel- lent	Partly there	Needs work	Comments:
Content of analysis				
• "Overall goal" addressed convincingly				
• Descriptive generalizations: Relevant factors identified				
• Phonological model applied insightfully				
• Any problems for model discussed				
• Insightfully incorporates course concepts and material				
Structure and organization				
• Descriptive generalizations before formal analysis				
• Generalizations/arguments supported with data				
• Data sufficient and insightfully organized				
• Flow of discussion easy to follow				
Technical focus				
• Constraints defined explicitly				
• Claimed rankings supported with valid arguments, w/L				
• Focus on relevant constraints and informative losers				
Mechanics (less weight)				
• Document submitted in Canvas (Assgts) by class time				
• Document mostly error-free				
• Document legible to reader; helpful visual structure
