

## Javanese

Consider the data shown below, in which we see some **alternating morphemes**.

<i>Noun</i>	<i>'My' + noun</i>	<i>'This' + noun</i>	<i>Gloss</i>
səbap	səbapku	səbabe	'reason'
murit	muritku	muride	'student'
beḍuk	beḍukku	beḍuge	'mosque drum'
ketʃap	ketʃapku	ketʃape	'soy sauce'
kulit	kulitku	kulite	'skin'

- What would you propose to be the **UR** of each alternating morpheme, and why?
