

Homework assignment #5(b)

Due Thursday, April 29 by 11:00am — answer these questions on Sakai in “Tests & Quizzes”

This HW is *optional*. HW #5 (overall) will be graded based only on the parts that you choose to submit. Points are assessed on this T&Q as part of the process of computing your overall letter grade for HW #5. 3/4 points on this portion is in the A range for the overall assignment.

Next class we will watch a video clip that lets us bring together various points of Japanese language structure and language use that we have been discussing in the final section of the course.

For HW #5(b):

- Download the data set that is the [transcript](#) of this video clip (also on Daily syllabus page)
- Choose any two of (a)-(e) in the box at the top
- Find two (interestingly different) examples of each category somewhere in the transcript, and briefly discuss them in the context of the points raised in the box (include line numbers from the transcript)
